To Whom It May Concern:

University College Cork Rowing club has received approval for a strategic development plan, developed by the Club committee in consultation with a number of experienced contacts in many fields of the sport. As such, we are currently looking for coaches, both experienced and inexperienced to help us realise the full potential of this strategy for the coming college year (Oct '10).

If you believe you could assist us in our aims and are willing to help develop UCC as the centre of Rowing excellence in the Munster region then please contact our club captain, Billy Ryan.

Yours in Rowing,

Billy Ryan

Captain
