

Notice Regarding Rowing Ireland Championships Programme 2010

We have finalised the programme for both the July and September Championships 2010.

There will be no events for less than J14.

The split of Championships is along the lines agreed at AGM in 2009.

As previously stated there will be a Time Trial where the entry exceeds 24 boats in both Championship and non Championship events.

Times trials will not apply to Jun 14 or Jun 15 grades.

The 2010 Championships have no precedent to support the decisions to split the events and as a result there is a skew with regard to the number of full Championship races between July and September.

This has an impact on non-championship events in September.

The Committee will host as many of these non-championships as is feasible.

For Non-Championship events the following shall apply;

1. Events will be offered on the basis of 3 or more entries from 2 clubs as a prerequisite for placement on the racing programme.
2. A full non- championships programme will be offered for the July event.
3. As there is constrained availability for the September event. The Championships committee will draw up a prioritised list for the September event.
4. There will be a call for entries as per a full programme for the September event. If there is more interest than capacity, then the prioritised list will come into play. If events have to be turned away as a result of this then entry will be refunded in full. Thereafter the non-Championship events with the least entries will be withdrawn first.

Please Note: Championship events take precedence over non-championship events in all situations.

Chair of Championships Committee.
